AIR HOISTS

INSTALLING THE TROLLEY

When installing a Trolley on a beam, measure the beam flange and temporarily install the Trolley on the Hoist to determine the exact distribution and arrangement of the spacers. The distance between the wheel flanges should be 3/16" to 1/4" (4.76 to 6.35 mm) greater than the width of the beam flange. The number of spacers between the Trolley side plate and the mounting lug on the Hoist must be the same in all four locations in order to keep the Hoist centered under the I-beam. The remaining spacers must be equally distributed on the outside of the side plate. **Warning: At least one spacer must be used between the bolt head and side plate and nut and side plate. Failure to do so could cause the Hoist to fall when used improperly. Tighten the Trolley Bracket Bolt Nuts to a minimum torque of 150 ft-lb (203.4 N m).**

When installing the Hoist and Trolley on the beam, make certain the side plates are parallel and vertical. After installation, operate the Trolley over the entire length of the beam with a capacity load suspended a few inches off the floor.

LUBRICATION

Periodically, grease the wheels with Ingersoll-Rand No. 68 Grease or a standard No. 2 multi-purpose grease. A grease fitting is provided on the end of each wheel axle.

HOW TO ORDER REPAIR PARTS FOR YOUR TROLLEY

Your Trolley is designed and constructed to give you long, troublefree service. In time it may become necessary to order and install new parts to replace those that have been subjected to wear. For prompt service and genuine Ingersoll-Rand parts, place orders with your nearest Ingersoll-Rand Distributor. The use of other than genuine Ingersoll-Rand replacement parts may result in decreased performance, and may invalidate all warranties.

When ordering parts, give your Distributor the following data:

1. Complete model number of the Trolley.
2. Complete part number, part description and quantity needed as shown below.

PART NUMBER FOR ORDERING

| | | |
|----|---------------------------------------|--------------|
| 1 | Trolley Side Plate (2) | CE120-430 |
| 2 | Wheel Assembly (4) | |
| | Flat Tread Standard | MR20-691T |
| | Taper Tread Standard | MR20-691 |
| | Flat Tread Spark-Resistant | HRA20A-R691T |
| | Taper Tread Spark-Resistant | MR20-1691 |
| 3 | Wheel Spacer (8) | 21-748 |
| 4 | Lock Washer (4). | D01-692 |
| 5 | Wheel Nut (4) | DU-562 |
| 6 | Bolt (2) | D01-694-8 |
| 7 | Spacer (28). | D01-442-1/6 |
| 8 | Locknut (2). | D01-341A |
| 9 | Spacer (4). | CE120-446 |
| 10 | Adapter | CE120-426 |
