Introducing the new Airetool GT Series Serrating Tools

COOPER Tools

Airetool GT Series Serrating Tools

- This tool re-defines grooving technology.
- Airetool's exclusive compact design for extreme rigidity, extended bit life, less run-out and increased cutting accuracy.
- Compact overall length reduces chip to chip time for unparalleled productivity.
- Airetool's innovative coolant pathway allows for positive coolant delivery and chip removal from the working area.
- Airetool's unique through spindle coolant delivery system gives phenomenal performance for superior groove quality and unmatched bit life.
- Carbide inserts eliminate mandrel deflection while removing burr left on grooves, thus eliminating the extra de-burring process.

- Unique/patent-pending bit for pinpoint coolant delivery, low-cost replacement and ease of change-out.
- New mandrel design lasts longer while eliminating galling.
- Recommended cutting speeds and feed guide supplied with each tool.
- High quality alloy steel.
- The GT grooving tool shares common parts in the 1/2" & 5/8" also 3/4", 7/8" and 1" sizes, allowing for fewer replacement parts to inventory.

NOTE: Optional 3/4" and 1" round shanks available upon request.
