

## Plain or Geared Trolleys — Enhanced Design Requires Less Effort, Superior Performance

**he Coffing CT-A Trolleys** feature enhanced design, available in plain and geared models, which can be modified to fit a wide range of beam sizes and styles. The CT-A is designed to provide easy operation and superior performance in industrial lifting applications.

- Capacities Rated loads from <sup>1</sup>/<sub>4</sub> to 5 tons in plain and geared models. Geared trolleys have standard 6-foot hand chain drop. Other hand chain drops available.
- Rugged Designed to provide superior performance and long, efficient service.
- Easy Operation Lowest rolling effort in the Coffing trolley line.
- Universal Mounting Clevis accepts all Coffing hook-mounted hoists, or lug-mounted hoists attached directly to load pins.
- Increased Adjustable Trolley easily conforms to any beam flange within range of adjustment. For larger flange width, please consult factory.
- Wrap-Around Side Plates Lugs provide additional security for operator and act as bumpers to protect wheels.
- Dual Tread Wheels Fully machined wheels fit any tapered or flat flanged beams within range of adjustment. Wheels include permanently lubricated, shielded ball bearings for long life and low maintenance.
- Options Spark resistant and corrosion resistant wheels available. Track clamps available on <sup>1</sup>/<sub>4</sub> to 4 ton models.
- Made In USA

## AWARNING

Overloading and Improper Use Can Result In Injury To Avoid Injury:

- Do not exceed working load limit, load rating, or capacity.
- Do not use to lift people or loads over people.
- Use only alloy chain and attachments for overhead lifting.
- Read and follow all instructions.

High Performance Lifting
