## Working Harder For You

In 1876, Edwin Harrington dramatically improved the self-sustaining hoist by introducing the worm-gear design. Since then, the company he founded has earned a proud reputation for product innovations and consistent quality that our customers count on to meet their diverse requirements.

Over the years we have developed and grown by recognizing the value of our customers and responding to your needs. The daily mission of our organization is to provide you, the customer, with the highest quality in our products, service and support.

In addition to our superior products and expanded facilities, we offer a Sales and Customer Service team that is dedicated to serving you, a well qualified Engineering Department to support your technical needs and a full support staff who all know the importance of working together to provide solutions for your material handling projects.

We are working harder to be the supplier-of-choice for all of your hoist and crane applications.

## NER/ER Electric Chain Hoists

### Extreme Duty Motor

Increased performance through 60 minute duty rating, H4 classification, Class B insulation, cooling fins, and standard thermal motor protection. Offers higher horsepower than most competitors.

### External Motor Fan

Functions to quickly eliminate motor and brake heat. This results in improved hoist duty rating and greatly lengthens brake life. Motor is totally enclosed, fan cooled (TEFC).

### Pull-Rotor Motor Brake

Extremely durable and reliable, this advanced design contains no brake coil to fail like conventional disc brakes.

### Compact Aluminum Body

Die-cast body is lightweight and offers low headroom—one of the best in the industry. Paint is electrostatically applied.

### Durable Push-Button Pendant

Easy to use, one-handed operation. Rated IP65. Standard control voltage is 110V. Strain relief wire is molded to pendant cord for added support and dependability.

### Forged Carbon Steel Hooks

Under excessive loads will open gradually and not fracture. Ball bearings produce smooth rotation. Bottom hook will swivel 360 degrees. Heavy-duty hook latches are standard.

### Unique Chain Guide

Provides quiet and smooth guiding of chain. Easily replaced without disassembly of hoist. Heavy cast iron construction for improved wear versus stamped steel design offered by many manufacturers.

**Load Sheave**

Deep-groove pockets fully support the load chain during operation. Reduces vibration and chain wear and provides a true vertical lift.

**Long Life Friction Clutch**

Protects hoist from damage and prevents overwinding. ER Series couples Weston-style load brake with friction clutch.

**Completely Sealed Body**

Suitable for both indoor and outdoor applications, including harsh environments. Gaskets throughout the hoist provide for an IP55 rating.

**Heat Treated Helical and Spur Gears**

Precision machined for long life. Oil bath lubrication results in a quiet, smooth, cool operation.

**Count Hour Meter**

This maintenance feature, supplied as standard on the ER Series hoists, tracks motor starts, running time and usage history by instant digital display. Meter operates independently of the hoist.

**Easy Maintenance Control Panel**

Simple layout of controls and a single swing-out panel. Hinged controller cover provides standard wiring diagram and allows fast on-site access.

**Superior Quality Chain**

Precision gauged, Grade 80, nickel-plated load chain is heat treated for wear resistance and extended life. Single fall available through 3 Ton.

**Operating Conditions**

Recommended for -4° to +104°F and humidity of 85% or less.

**Plug-In Connections**

Saves valuable time on setup and maintenance.

“Quick disconnect” replaces typical competitive hard-wired designs.

## MR Motorized Trolleys

### Built-In Drop Stops

Important feature provides additional security for the operator and the equipment.

### Sealed Protection

Appropriate for both indoor and outdoor applications, including harsh environments. Gaskets throughout the trolley provide for an IP55 rating.

### Pendant Plug-In Connections

Saves valuable time on setup and maintenance. "Quick disconnect" replaces typical competitive hard-wired designs.

### Rubber Bumpers

Standard feature on all motorized trolleys. Provides protection from collisions. Complies with ASME standards.

### Power Supply Cord

Standard 30' length is included with cable hangers suitable for festooning.

### Side Guide Rollers

Four ball bearing supported rollers enhance smooth trolley motion and reduce wear of the wheels and beam.

### Cable Support Arm Assembly

Convenient "tow bar" is standard component that gives support and guides the power supply festooning.

### Versatile Suspension

Available in parallel or perpendicular mounts. Semi-rigid lug results in ultimate low headroom and allows limited movement. Ideal for demanding applications.

**Heavy Duty Motor**

Designed for top performance with high-horsepower, 30-minute duty rating, cooling fins and standard thermal motor protection. Motor is totally enclosed, non-ventilated (TENV).

**Motor Gearing**

Grease lubricated, helical gears provide smooth, quiet acceleration and deceleration. Easy exchange of parts for quick speed change.

**Universal Tread Wheels**

Operates on both tapered and flat flanged beams. Deep groove ball bearings supply smooth, quiet travel.

**Pull-Rotor Motor Brake**

Extremely durable and reliable, this advanced design furnishes precision load control, deceleration and long life.

## NER/ER Electric Chain Hoists With Hook and Lug Suspensions

The NER/ER Series of electric chain hoists were designed using the latest technology. The results are high quality, low-headroom, full-featured hoists that provide daily reliable performance in both routine workplace situations and severe working environments.

Refer to pages 4 and 5 for details on features and benefits.

### Standard Hoist Specifications

<p><b>Capacity Range</b> 1/8 Ton–5 Ton (See ER large capacity—pages 26–35)</p> <p><b>Reconnectable Voltage</b> 208-230/460-3-60 for both single and dual speed hoists (optional voltages available)</p> <p><b>Control Voltage</b> 110V (optional 24V and 48V)</p> <p><b>Duty Cycle*</b> Single Speed—60 Min. #### NER vs. ER Features

ER model has same high-quality features as NER plus the following:

- Second brake—Weston-style mechanical load brake
- Count hour meter
- Large capacity—8 Ton–20 Ton

NER/ER010L

## **NERM/ERM Electric Chain Hoists With Motorized Trolleys**

To further expand the capabilities of our NER/ER line of electric hoists, the MR Series of electric trolleys was developed. They feature an innovative side guide roller system that results in very smooth travel along the beam. Harrington's MR trolley provides the mobility needed in a wide variety of industrial applications.

*Refer to pages 4, 5, 6 and 7 for features and benefits and page 8 for standard hoist specifications.*

### **Standard Motorized Trolley Specifications**

#### **Capacity Range**

1/8 Ton—5 Ton  
(See ER large capacity—pages 26–35)

#### **Reconnectable Voltage**

208-230/460-3-60 for  
both single and dual speed trolleys  
(optional voltages available)

#### **Control Voltage**

110V (optional 24V and 48V)

#### **Duty Cycle\***

Single Speed—30 Min.  
Dual Speed—30/10 Min.

#### **Classification\***

ASME H4  
ISO M5 or M4  
FEM 2M or 1Am

#### **Ratings**

Trolley—IP55  
Pendant—IP65

#### **Standard Power Supply Cord**

30' (longer lengths available)

#### **Standard Pendants**

4-button (Up/Dn/For/Rev)  
Momentary contacts

#### **Shafts**

Standard shafts fit wide flange range  
Longer shafts for wider beams  
Spacers for easy adjustments

*\*See page 48 for additional information.*

*NERM/ERM030L-L

## NERP/ERP and NERG/ERG Electric Chain Hoists With Push and Geared Trolleys

Additional options are available based on the application and trolley travel requirements. Mounting our NER/ER Series hoists to either a push or geared trolley will create an easy and economical method of transporting the load. This combination is ideal for small workshops and infrequent moves.

*Refer to page 4 and 5 for features and benefits and page 8 for standard hoist specifications.*

### Standard Manual Trolley Specifications

**Capacity Range**

1/8 Ton–5 Ton

(See ER large capacity—pages 26–35)

**Shafts**

Standard shafts fit wide flange range

Longer shafts for wider beams

Spacers for easy adjustments

**Drop Stops**

Standard

**Bumpers**

Optional

**Standard Hand Chain Drop**

On geared trolleys

2' less than lift (longer drops available)

**Wheels**

All steel

Shielded ball bearings

Fit flat or tapered beam flange

*NERP/ERP005L  
(Shown with optional  
steel chain container  
available for  
very long lifts.)*

*NERG/ERG050L*

## NER/ER Cylinder Control Electric Chain Hoists With Hook and Lug Suspensions

We have expanded the benefits of the ergonomically designed cylinder control into our full-featured NER/ER Series of electric chain hoists. For three-phase applications requiring ease of control, one-handed operation, fast lifting speeds and heavy duty production, these hoists will increase productivity, add to operator comfort and answer your ergonomic needs.

*Refer to pages 4 and 5 for features and benefits and page 8 for standard hoist specifications.*

### Unique Features and Benefits

#### **In-Line Handgrip**

Unique cylinder control replaces standard pendant. Design permits one-handed operation and gives the operator a free hand to easily position the load. Cylinder control kit is available with hoist or as kit for field installation.

#### **High/Low Speeds**

Easy touch rocker switch above handgrip on dual speed models allows quick selection between low and high speeds.

#### **Removable Bottom Hook**

Permits insertion of a variety of below-the-hook material handling devices.

NER003SDCC

### Unique Hoist Specifications

#### **Capacity Range**

1/8 Ton–1/4 Ton

#### **Standard Lift**

6' (other lifts not available)

#### **Standard Reach**

9' (approx.)  
(reach equals lift plus headroom)

#### **Chain Containers**

Standard  
Plastic

## ER Large Capacity Electric Chain Hoists With Hook and Lug Suspensions

Our ER Series of electric chain hoists was specifically developed for high performance. To handle the heavier loads, our full line of large capacity hoists provide the duty cycle, durability and ease of operation needed to support most lifting applications. Regardless if the job is a one-time lift or an everyday situation, the ER electric chain hoist will work harder for you.

Refer to pages 4 and 5 for features and benefits.

### Standard Hoist Specifications

**Large Capacity Range**

8 Ton–20 Ton

**Reconnectable Voltage**

208-230/460-3-60 for both single and dual speed hoists (optional voltages available)

**Control Voltage**

110V (optional 24V and 48V)

**Duty Cycle\***

Single Speed—60 Min.  
Dual Speed —30/10 Min.

**Classification\***

ASME H4  
ISO M5 or M4  
FEM 2M or 1Am

**Ratings**

Hoist—IP55  
Pendant—IP65

**Limit Switch**

Prevents overwinding/overlifting  
Standard upper/lower

**Standard Lift**

10' (longer lifts available)

**Standard Pendant Drop**

4' less than lift (longer drops available)

**Standard Power Supply Cord**

30' (longer lengths available)

**Standard Pendants**

2-button (Up/Down)  
Momentary contacts

**Chain Containers**

Optional  
Canvas or steel

ER100S  
(Shown with  
optional canvas  
chain containers.)

\*See page 48 for additional information.

## ERM Large Capacity Electric Chain Hoists With Motorized Trolleys

Our large capacity MR Series of motorized trolleys offers the horsepower and precision required to transport and position extremely heavy loads. Designed with either 4 or 8 wheels to spread the weight across a wider wheel base, they easily move the ER large capacity hoist and its load from one location to the next.

Refer to pages 4, 5, 6 and 7 for features and benefits and page 26 for standard hoist specifications.

### Standard Motorized Trolley Specifications

**Capacity Range**

8 Ton–20 Ton

**Reconnectable Voltage**

208-230/460-3-60  
(optional voltages available)

**Control Voltage**

110V (optional 24V and 48V)

**Duty Cycle\***

Single Speed—30 Min.

**Classification\***

ASME H4  
ISO M5 or M4  
FEM 2M or 1Am

**Ratings**

Trolley—IP55  
Pendant—IP65

**Standard Power Supply Cord**

30' (longer lengths available)

**Standard Pendants**

4-button (Up/Dn/For/Rev)  
Momentary contacts

**Shafts**

Standard shafts fit wide flange range  
Longer shafts for wider beams  
Spacers for easy adjustments

ERM100L-L  
(Shown with  
optional canvas  
chain container.)

\*See page 48 for additional information.

## ERP and ERG Large Capacity Electric Chain Hoists With Push and Geared Trolleys

To manually move our large capacity ER electric chain hoists, the PT push and GT geared trolleys provide smooth travel on precision machined wheels with shielded ball bearings. They are the ideal choice for the one-time unusual job or the seasonal moves for maintenance of heavy equipment.

Refer to pages 4 and 5 for features and benefits and page 26 for standard hoist specifications.

### Standard Manual Trolley Specifications

**Capacity Range**

Push—8 Ton–10 Ton  
Geared—8 Ton–20 Ton

**Shafts**

Standard shafts fit wide flange range  
Longer shafts for wider beams  
Spacers for easy adjustments

**Drop Stops**

Optional

**Bumpers**

Optional

**Standard Hand Chain Drop**

On geared trolleys  
2' less than lift (longer drops available)

**Wheels**

All steel  
Shielded ball bearings  
Fit flat or tapered beam flange

ERP080S  
(Shown with  
optional canvas  
chain container.)

## SNER Electric Chain Hoists With Hook and Lug Suspensions and Motorized, Push and Geared Trolleys

Our SNER Series of electric chain hoists furnishes single-phase operation in a heavy-duty, low-headroom design. Available in hook mount or coupled with a trolley, it easily transports any load. Look to this model when high quality and convenience are important for the job.

### Features and Benefits

#### Extreme Duty Motor

Higher horsepower and top duty ratings provide increased performance

#### Pull-Rotor Motor Brake

Extremely durable and reliable, this advanced design has no brake coil to fail

#### Unique Chain Guide

Provides quiet and smooth guiding of chain  
Easily removed without disassembly of hoist  
Heavy cast iron construction for improved wear

#### Load Sheave

Deep-groove pockets fully support the load chain, reduces vibration and chain wear and provides a true vertical lift

#### Long Life Friction Clutch

Protects hoist from damage and prevents overwinding

#### Heat Treated Helical and Spur Gears

Precision machined for long life. Oil bath lubrication results in a quiet, smooth, cool operation

#### Completely Sealed Body

Suitable for indoor, outdoor and harsh environments

#### Compact Aluminum Body

Die-cast body is lightweight and offers low headroom

#### Easy Maintenance Control Panel

Fast on-site access with hinged cover, single swing-out panel and simple layout of controls

#### Superior Quality Chain

Grade 80 nickel-plated load chain is heat treated for wear resistance and extended life

#### Forged Carbon Steel Hooks

Under excessive loads will open gradually and not fracture

Bottom hook swivels 360 degrees

#### Motorized Trolley Side Guide Rollers

Provide smooth trolley motion and reduced wear on wheels and beam

#### Motorized Trolley Drop Stops and Rubber Bumpers

Built-in security for the operator and added protection for the equipment and load

### Standard Hoist/Trolley Specifications

#### Capacity Range

1/4 Ton—3 Ton

#### Reconnectable Voltage

115/230-1-60

#### Control Voltage

110V

#### Duty Cycle\*

Hoist—60 Min., Trolley—30 Min.

#### Classification\*

ASME H4, ISO M5 or M4, FEM 2M or 1Am

#### Ratings

Hoist/Trolley—IP55

Pendant—IP65

#### Limit Switch

Prevents overwinding/overlifting  
Standard upper

#### Chain Falls

Single fall through 2 Ton

#### Standard Lengths

Lift—10'

Pendant Drop—4' less than lift

Power Supply—Hoist—15'

Power Supply—Motorized Trolley—30'  
(longer lengths available)

#### Standard Pendants

Hoist—2 Button, Hoist/Trolley—4 Button  
Momentary contacts

#### Chain Containers

Optional

Canvas, plastic or steel

#### Geared Trolley Standard Hand Chain Drop

2' less than lift (longer drops available)

#### Trolley Shafts

Standard shafts fit wide flange range

Longer shafts for wider beams

Spacers for easy adjustments

#### Trolley Wheels

All steel

Shielded ball bearings

Fit flat or tapered beam flange

## ED Electric Chain Hoists With Hook Suspension and Mini Trolley

In our ED Series of electric chain hoists, we offer the user a powerful combination of benefits. A wide variety of lifting speeds. A low headroom designed to fit most applications. A unique, ergonomically designed, one-handed cylinder control that results in maximum load control. These features tied together with the convenience of single-phase power, make these hoists ideal for both commercial and industrial applications.

### Features and Benefits

### Standard Hoist Specifications

<p style="text-align: center;"><b>All Models</b></p> <p><b>Double Braking System</b> Provides protection with a Weston-style mechanical load brake and a regenerative brake</p> <p><b>Compact Design</b> Die-cast aluminum body is lightweight and low headroom to fit into tight areas Easy to install, move and store</p> <p><b>Heavy Duty Motor</b> With .4 to .8 horsepower is above standard for industrial situations. The compact DC motor with rectifier for AC current reduces weight, generates less heat and maintains duty cycles</p> <p><b>High Performance Friction Clutch</b> Is integrated with the load brake and designed to slip to prevent overwinding or overtravel</p> <p><b>Heat Treated Gearing</b> Deep-groove ball and needle bearings are immersed in an oil bath resulting in smooth, quiet operation</p> <p style="text-align: center;"><b>Unique to DS Model</b></p> <p><b>Speed Flexibility</b> Low speed adjustable from 0 to 100% of maximum speed by setting screw inside the pendant</p> <p style="text-align: center;"><b>Unique to Cylinder Control (DA) Model</b></p> <p><b>In-Line Handgrip</b> Permits one-handed operation and gives the operator a free hand to easily position the load</p> <p><b>High/Low Speeds</b> Easy touch rocker switch above handgrip allows quick selection between low and high speed control Finger turn knobs allow custom setting of speeds from 0–100%</p> <p><b>Removable Bottom Hook</b> Permits insertion of a variety of below-the-hook material handling devices</p>	<p><b>Capacity Range</b> 125 lb.–525 lb.</p> <p><b>Voltage</b> 120-1-60</p> <p><b>Control Voltage</b> 120V Direct</p> <p><b>Duty Cycle*</b> Varies by capacity—see charts</p> <p><b>Classification*</b> ASME H2</p> <p><b>Ratings</b> Hoist—IP54 Pendant—IP65 Cylinder Control—IP44</p> <p><b>Limit Switch</b> Prevents overwinding/overlifting Standard upper</p> <p><b>Chain Falls</b> Single fall—all models</p> <p><b>Standard Lengths</b> Single/Dual Speeds Lift—10' Cylinder Control Lift—6' Single/Dual Speeds Pendant Drop—3' less than lift Cylinder Control—9' reach (approx.) (reach equals lift plus headroom) Power Supply—16' (longer lengths available)</p> <p><b>Standard Pendants</b> Single/Dual Speeds—2 button Momentary contacts</p> <p><b>Chain Containers</b> Standard Plastic</p> <p><b>Mini Trolley</b> Fits all ED models For wider flanges use PT005 trolley</p>

## Options and Technical Data

### VFD PACKAGES

Harrington's standard variable frequency drive packages for ER hoists include:

- VFD installed in a NEMA 12/13 electrical enclosure
- VFD programmed & tested to customer's specs for speed(s) and/or acceleration
- Branch circuit fuses to protect the VFD and the hoist motor
- Mounting bracket for VFD enclosure
- Wiring and hardware

### LOAD LIMITER

Reduces the potential for making hazardous, over-capacity lifts. The load limiter is preset at 115% of rated capacity and protects the hoist mechanism from damage due to overloading. Overloading the hoist electrically activates the load limiter, making the hoist inoperable (load can still be lowered at any time).

### CORROSION-RESISTANT CHAINS

These special premium chains give the advantage of increased resistance to corrosion. Ideal for job sites affected by rain, saltwater, steam and chemicals.

Both NP (Nickel Plated) and ND (Nickel Diffused) load chains offer superior resistance to corrosive conditions.

Corrosion Resistance Test Results for NP and ND Chains			
Substance		Concentration %	Resistance to Corrosion
Inorganic Acids	Sulfuric Acid	10	Some
	Nitric Acid	10	Some
	Hydrochloric Acid	10	Some
	Phosphoric Acid	10	Slight
	Boric Acid	5	Slight
Organic Acids	Acetic Acid	10	Slight
	Tartaric Acid	10	No
Alkalis	Caustic Soda	10	No
	Ammonia Hydroxide	10	Slight
Others	Air-Indoor/Outdoor	—	No
	Seawater	—	Slight
	Seasonings	—	No

*Results listed in this table are for chemicals in a pure state. The degree of corrosion resistance may differ from this table with the presence of other chemicals, different concentrations, mixed substances or damage to the nickel surface layer.*

### UNIVERSAL LATCH KITS

Generic design to fit most hooks. Available in standard steel or stainless steel. Neck and throat dimensions can be combined for proper fit. (Example, neck size E with throat size L.) Neck measurement must be diameter—not circumference. Latch kit brochures available upon request. Contact Customer Service for dimensions not shown.

Latch Kit Product Code	Neck Diameter N (in)	Throat Opening T (in)
A	9/16 to 5/8	1 1/8 to 1 1/8
B	3/4 to 13/16	1 1/4

## Options and Technical Data

### DUTY CLASSIFICATIONS

Hoist Duty Class	Typical Areas of Application	Operation Time Ratings at K=0.65*			
		Uniformly Distributed Work Periods		Infrequent Work Periods	
		Max. ON Time (min/hr)	Max. No. of Starts/hr	Max. ON Time From Cold Start (min)	Max. No. of Starts
H2	Light machine shop fabricating, service and maintenance; loads and utilization randomly distributed; rated loads infrequently handled	7.5 (12.5%)	75	15	100
H3	General machine shop fabricating, assembly, storage, and warehousing; loads and utilization randomly distributed	15 (25%)	150	30	200
H4	High volume handling in steel warehouses, machine shops, fabricating plants and mills, and foundries; manual or automatic cycling operations in heat treating and plating; loads at or near rated load frequently handled	30 (50%)	300	30	300

\*K=Mean effective load factor.

### LIFTING MOTOR RATINGS

#### Short Time Rating

This rating indicates how long the hoist can be operated continuously at the rated capacity on the cycle below, assuming continued operation for a short time span.

- Single speed: 60 min
- Dual speed: 30/10 min

#### Intermittent Rating (Percent ED)

##### Max. Number of Starts Per Hour

This rating indicates the allowable ratio of motor ON time to motor OFF time, and starts per hour for a hoist operated continuously at 63% of rated capacity on the cycle below, assuming continued operation or repeated starting over a long time span.

$$\text{Example (single speed): \%ED} = \frac{\text{Motor ON time (t1 + t3)} \times 100}{T \text{ (1 cycle)}}$$

(Where T = 1 cycle (t1 + t2 + t3 + t4) and is not more than 10 minutes.)

##### NER/ER Lifting Motor Ratings

- Single speed: 60% ED, 360 starts/hr
- Dual speed: 40/20% ED, 120/240 starts/hr

### BULLARD® AND SHUR-LOC® HOOKS

These hooks offer a positive locking latch feature. Consult Customer Service for full details.

**COMPLIANCE**

Harrington’s electric chain hoists are produced to comply with:

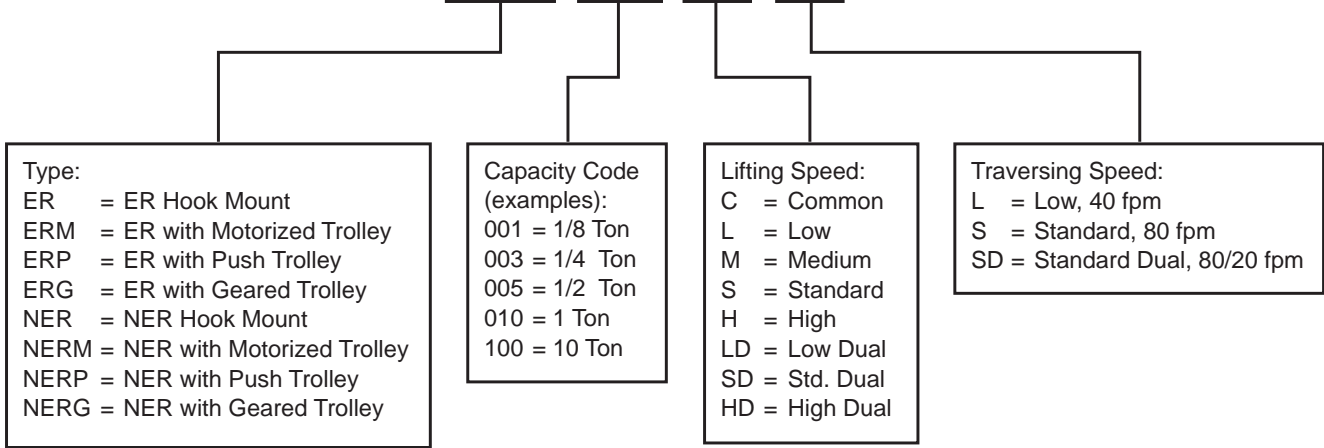

- ANSI/NFPA 70, “National Electrical Code”
- ANSI/ASME B30.16, “Safety Standard—Overhead Hoists (Underhung)”
- ANSI/ASME HST—1M, “Performance Standard for Electric Chain Hoists”

Harrington’s manual and electric-powered trolleys are produced to comply with the trolley-related requirements of:

- OSHA Section 1910.179 of Title 29, “Occupational Safety and Health Regulations — Overhead and Gantry Cranes”
- ANSI/ASME B30.11, “Safety Standard—Monorails and Underhung Cranes”
- ANSI/ASME B30.17, “Safety Standard—Overhead and Gantry Cranes (Top Running Bridge, Single Girder, Underhung Hoist)”

**Product Code  
For NER/ER Series**

**ERM 020 SD-SD**

## Notes

## Complete Product Offering

Over the years Harrington has continued to respond to the needs of our customers by further expanding our product offerings. In addition to the many models described in this catalog, our full series of product catalogs, as shown below, will provide you with all of the information you will need to answer questions, specify a product and place an order. For catalog copies or answers to specific product questions, please contact our Customer Service Department by calling 800-233-3010 (Manheim, PA) or 800-317-7111 (Corona, CA) or e-mail [customerservice@harringtonhoists.com](mailto:customerservice@harringtonhoists.com)

### Manual Hoist Products Catalog:

Refer to this Harrington catalog for detailed information on the following:

- Lever hoists
- Hand chain hoists
- Hoist and trolley combinations
- Low headroom trolley hoists
- Push and geared trolleys
- Hoist load testers

### Air Powered Hoists Catalog:

Refer to this Harrington catalog for detailed information on the following:

- Compact Mini-Cat with pendant, cord and manipulator controls
- Air hoists with pendant and cord controls
- Air trolleys

### Electric Wire Rope Hoists Catalog:

Refer to this Harrington catalog for detailed information on the following:

- Deck/base mounted or lug suspended hoists
- Standard headroom trolley hoists
- Ultra-low headroom trolley hoists

### Crane Components Catalog:

Refer to this Harrington catalog for detailed information on the following:

- End trucks-top running-motorized, geared and push
- End trucks-underhung-motorized, geared and push
- Double girder MAX-E-Lift end trucks
- Convertible push end trucks
- Beam accessory kits

### Complete Cranes Catalog:

Refer to this Harrington catalog for detailed information on the following:

- Heavy duty Class C single girder top running and underhung cranes
- Heavy duty Class C double girder top running and underhung cranes
- Medium duty top running and underhung push cranes
- Crane control panels

## Warranty

All products sold by Harrington Hoists, Inc. are warranted to be free from defects in material and workmanship from date of shipment by Harrington for the following periods:

**Manual Hoists & Trolleys—2 years**

**Electric Hoists, Air Hoists & Trolleys, Crane Components—1 year**

**Spare / Replacement Parts—1 year**

The product must be used in accordance with manufacturer's recommendations and must not have been subject to abuse, lack of maintenance, misuse, negligence, or unauthorized repairs or alterations.

Should any defect in material or workmanship occur during the above time period in any product, as determined by Harrington Hoists' inspection of the product, Harrington Hoists, Inc. agrees, at its discretion, either to replace (not including installation) or repair the part or product free of charge and deliver said item F.O.B. Harrington Hoists, Inc. place of business to customer.

Customer must obtain a Return Goods Authorization as directed by Harrington or Harrington's published repair center prior to shipping product for warranty evaluation. An explanation of the complaint must accompany the product. Product must be returned freight prepaid. Upon repair, the product will be covered for the remainder of the original warranty period. If it is determined there is no defect, or that the defect resulted from causes not within the scope of Harrington's warranty, the customer will be responsible for the costs of returning the product.

Harrington Hoists, Inc. disclaims any and all other warranties of any kind expressed or implied as to the product's merchantability or fitness for a particular application. Harrington will not be liable for death, injury to persons or property, or for incidental, contingent, special or consequential damages, loss or expense arising in connection with the use or inability whatever, regardless of whether damage, loss, or expense results from any act or failure to act by Harrington, whether negligent or willful, or from any other reason.
